DATA ANALYSIS!

Raceway Park MyChron Data Analysis/Consulting
Find out why your fast laps were fast!!
 Have you ever wondered why your fastest laps were faster than you regular laps. Or how changes to the kart impacted different corners. Did the change make you faster in certain corners and slower in others? Are there places where those final tenths of a second separating you and the leader could be made up? Using MPH and RPM sensors paired with GPS track mapping, we can help you find just where those tenths lie. We will install a GPS unit into your MyChron, analyze your practice and/or qualifying sessions, debrief the driver, download and analyze the data from that session, provide fastest lap overlays, and make you faster for the race!!

DATA ANALYSIS!

3 Session Analysis \$99

We are a Dealer of Haase Karts and Parts

Haase is the best value when buying a new kart today. All karts come with the **"good" stuff**. This includes ALL **magnesium components**, the best axle & hubs, low volume wheels, 25mm spindles, factory set up information for all classes and more! If you are looking for a great kart at a great price Haase is it! For a limited time "Raceway Park" Karters can buy a new Haase Mistral Complete Rolling Chassis from us at **DEALER COST!**

Kart Axle Straightening Service

50mm, 40mm, 35mm, 30mm, 25mm Axles

Stop using hammers to attempt to straighten your tweaked axle
 We will return your axle perfectly straight as if it was never bent!

\$75 Each!

SKF Ceramic Bearing Upgrade

Stop letting rolling resistance take horsepower away
 Originally: \$280 **Buy from us for \$249 (50mm bearing)**
 50mm, 40mm, and 30mm ceramic bearings are available
 Steel bearings in these sizes can be purchased at a lower price as well

Alternative Ceramic Bearing Upgrade

Performance Features:
 -40% Less Friction over Steel Bearings (Less Friction = More Horsepower)-
 -60% Less Rotating Weight- -Bearing Life Increased 300-500%-
 -Lower Vibration Levels- -Cooler Running Temperatures-
 50mm, 40mm, 30mm, and 25mm ceramic bearings for rear axles
 17mm and 25mm Front Wheel Ceramic Bearings can be purchased

50 mm X 80 \$145 50mm X 90 \$175
